USB PLASTIC OPTICAL FIBER (POF) ADAPTER

Binghamton, NY – March 1, 2010 - Electronic Links International, Inc. today announces the introduction of two USB POF ADAPTERS. They are typically used for providing high speed POF for computers with USB ports. They are simple plug-and-play fast Ethernet connection. The USB connector on the adapters can be type A or B, and the POF side of the adapter can have the SMI connector or a plug less connector. They are offered in two colors: white for receiving the 1.5 mm cable, and black for

receiving the 2.2 mm cable. The optical port has a data rate of 100 Mbps with a transmission length of 50m. They are FCC and CE certified.

About Electronic Links International

Electronic Links International, Inc. develops standard and custom plastic optical fiber connectors, cable assemblies and other devices.
